

Harshil Soni

Student at Georgian College

Enthusiastic and perpetual learner to contribute towards team success through hard work, attention to detail and excellent organizational skills. I am currently pursuing Advance Diploma degree in Computer Programming and Analysis field at Georgian College, motivated to learn, grow, and excel in software industry.

Technical Projects

- **TravelO (Using ASP.Net):** TravelO is a TRIP/TOUR Planner. Basically, the user can find different places/cities according to the provinces. And this page will assist the user to know about that place, famous cuisines, activities to do and many more. Even the user itself can also add his/her own experience with CRUD functionality and have a chance to edit or delete it later. This web site also allows users to create a To-Do list for their trip.
- **Portfolio (Using JavaScript and its Frameworks: React.js, Express.js, Angular.js, and Node.js):** This is a fully functional portfolio made by using Express.js and Node.js, which are JavaScript frameworks. It includes a home page which has some introduction about who I am, followed by 3 more pages like about me which has my personal information like experience, education, and skills, projects that I have done and contact form if someone wants to contact me. Made a user-friendly UI with the help of Angular.js and React.js.
- **Olympic Leaderboard (Using Java and JavaFX):** This JavaFX application will show the leaderboard/Olympic medals won by different countries in the Olympic event. It will also have a secondary view which will compare the medals won by a country with other participating countries. All this data will be dynamically taken from the database.
- **PizzaO (Using php):** Made a pizza ordering system using php and provided the user-friendly UI with the help of bootstrap and CSS.
- **Library (Using .Net C#):** Made an online library in which the user can read books, borrow books, and have a chance to buy it.
- **Change The Now (CTN):** Member in Change the Now community and made a project on UN Sustainable Development (Topic: Equality)

Work History

April 2019 –
August 2020

Junior UI/UX Designer

Silver wing Technologies PVT. LTD., Gujarat, India:

- As a UI/UX designer I worked very closely with senior UI/UX designer, whose job typically consists of talking with customers to determine requirements.
- Building user profiles and creating user stories to show how a user will work their way through your application.
- Worked on 3rd party websites to troubleshoot it and add the requirements accordingly as per the reports.
- Developed user-friendly UI by using JavaScript Frameworks (React.js and Angular.js)
